

## Joint Environmental Policy of IST GmbH and Prometris GmbH Mannheim

*„Man is responsible not just for what he does  
but also for what he does not do” (Lao-tse)*

We, the management of IST GmbH and Prometris GmbH in Mannheim, take our responsibility for future generations seriously. Where possible we endeavor to adhere to environmental protection over and above the legal requirements. We are committed to continually improving our environmental performance and strive to limit any environmental impact caused by our business operations.

- We log, document and regularly check the direct and indirect environmental effects which are linked to the activities of our businesses. This includes primarily the consumption of energy, drinking water and paper as well as waste management and emissions control, but also for example, purchasing, transport and environmental awareness.
- In an effort to minimize adverse impacts on the environment and to ensure sustainability, we have implemented an environmental management system with clear goals, measures, responsibilities and time frames.
- We adhere to all relevant legal requirements and check this on a regular basis.
- The employees of our companies are actively involved in environmental issues and are suitably trained and informed.
- Our environmental policy is freely accessible and we try, where possible and reasonable, to cooperate with others to achieve the goals set out above.
